

# **Peace Day Promise**

## **Mission statement**

### **Background**

The International Day of Peace was established in 1981 by the General Assembly of the UN. September 21 is the day where all member states, organisation of the UN system, regional and non-governmental organisations and individuals should promote peace. The day is also a ceasefire day.

### **HOPE's action**

We are all going to make a promise for the peace day to do something, a small action in our local communities that promotes peace on that day. After the action, we will write down what we did, how it was, and why we did it. This information will be shared with the others. The purpose of this action is to go trough with the first HOPE action globally and to show that we are able to share information.
