Global Unification’s objective is to be the largest International Industrial Research and Development Association. To accomplish our mission we will establish GU Centres in 100 countries around the world; our priority lies first and foremost in Africa and Asia, where the first GU Centres will be established. All GU Members will be invited to participate in our Global Sustainable Development Policy Think Tank Program.

It is imperative, and shall remain so, that all GU Members collaborating in our programs will be computer literate and represent either the private or public service sectors or academic institutions, NGO’s or Civil Society Organisations. It is the duty of all GU Member to ensure that Global Unification maintains its position as an intelligent, informed, ethical, diligent and reputable association.

In order for us to maintain this high level of credibility and integrity, all GU Members have provided, and GU have duly authenticated, the professional qualifications and experience.
